OUCH! TREATING BEE STINGS 101

Prevention Tips: Wear clothes that are light in color. Keep clothes clean, fresh & free of sweat. Avoid perfumed products.

01 REMOVE

Try to remove the stinger as quickly as possible.

02 WASH

Wash carefully with soap & water. Apply an ice pack wrapped in clean cloth to help with swelling.

03 TREAT

Give proper Tylenol or ibuprofen dose for pain as needed. May give over-the-counter antihistamine with doctor's approval.

04 MONITOR

Call 911 immediately if child experiences:

Wheezing, trouble breathing, tightness in throat or chest, swelling of lips, tongue or face, dizziness, fainting, nausea, and/or vomiting.
